

# Innovative ASIC development and supply

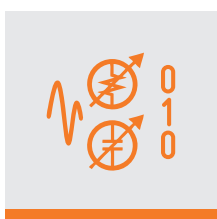

## Facts

- ASIC development and supply
- Custom IC design services
- Experts in analog, digital, mixed-signal and high-voltage
- Largest independent European design group
- ISO9001 / ISO13485 / IEC61508-ISO26262
- Unique design and verification environment
- Automotive, medical, industrial and consumer
- In-house production test (ATE) development and product engineering

*"We build longterm relationships with our customers by supplying innovative and cost effective ASICs to support their product roadmap."*

ICsense CEO, Bram De Muer

## Main expertise areas

Sensor / MEMS

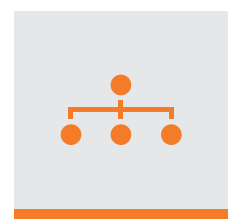

High-Voltage

Power / Battery

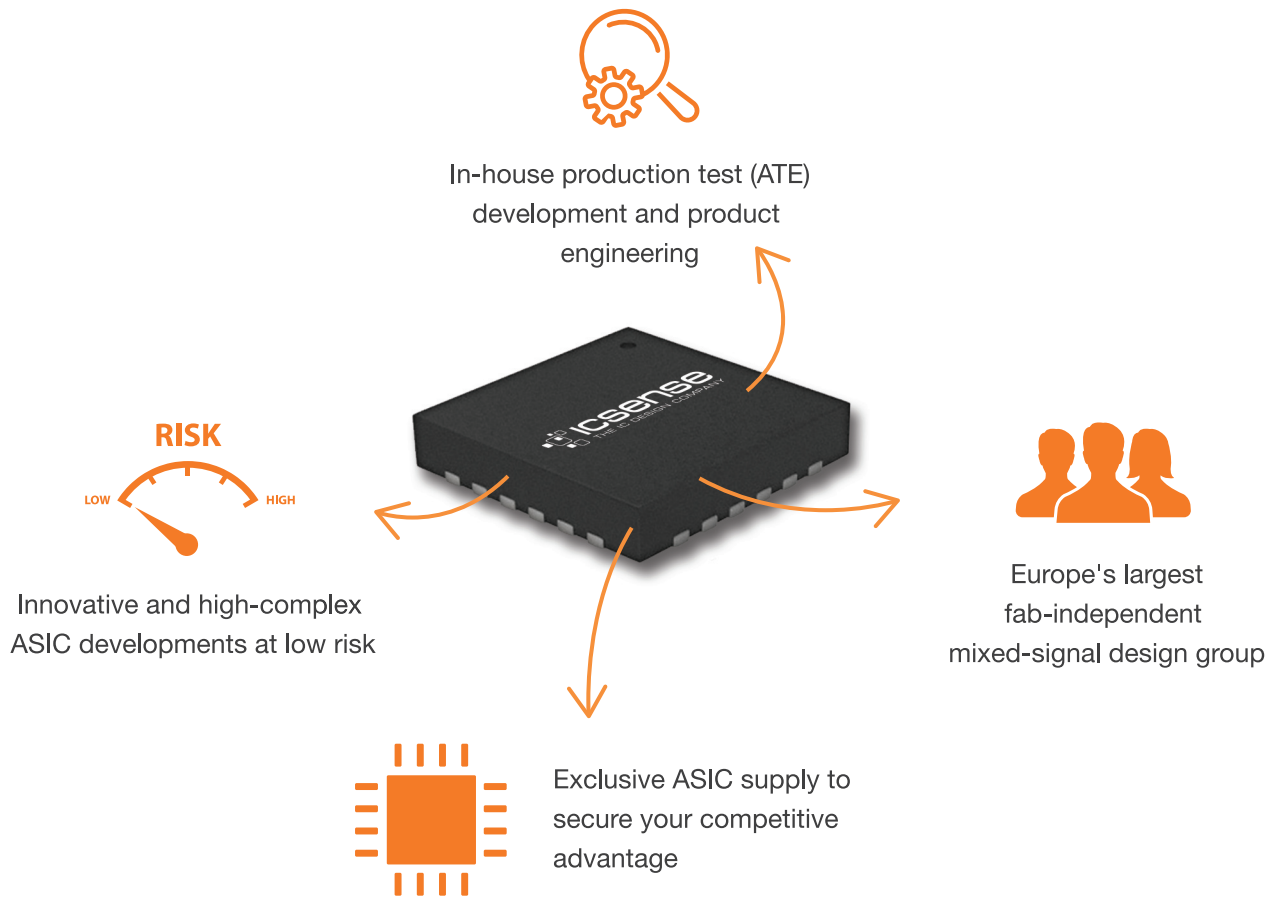

Low-Power

Communication
